Kegel Kode: 2235 | Pattern designed for use in Kegel TRANSFER ROLLER/ WIPER BAR machines. | Based upon the 2000 PBA Indianapolis Open pattern created by Kegel, this pattern is designed to play towards the outside portion of the lane. Because of the relatively short 35 foot length of the this pattern, players will need to control the excessive change of direction of the bowling ball as it enters the 25 feet of dry backend. Since lanes do have many topographical differences, on some lanes this pattern will require a more direct route to the pocket while other lane characteristics may allow players to swing the ball more.
